

# Geography - Settlements and Skills

| Subject Specific Vocabulary                   |  | Associated Diagram  | Sticky Knowledge   |           |     |                |                  |   |  |                                      |  |
|---|--|---|--|-----------|-----|----------------|------------------|---|--|--------------------------------------|--|
| Compass                                       | A tool used to show direction.                                       | <p>Label the 8 compass points.</p>  <p>Name the OS symbol.</p> <p> Place of worship</p> <p> School</p> <p> Main road</p> <p> Woods / forest</p> | <p>What makes an area a good place for a settlement?</p> <p>Flat land, close to water,</p>   |           |     |                |                  |   |  |                                      |  |
| Ordnance Survey                               | A type of map with symbols to represent geographical features.       |   | <p>Name some of the main differences between settlements in the Stone Age and how we live now.</p>   |           |     |                |                  |   |  |                                      |  |
| Symbol  | A picture to represent a feature on a map.                           |   | <table><tr><th>Stone Age</th><th>Now</th></tr><tr><td>Smaller groups</td><td>Towns and cities</td></tr><tr><td>Buildings made by the people who lived there.</td><td>Buildings built by others with more regulations.</td></tr><tr><td>People moved depending on resources.</td><td>People tend to stay in one place more.</td></tr></table> | Stone Age | Now | Smaller groups | Towns and cities | Buildings made by the people who lived there. | Buildings built by others with more regulations. | People moved depending on resources. | People tend to stay in one place more. |
| Stone Age                                     | Now  |   |  |           |     |                |                  |   |  |                                      |  |
| Smaller groups                                | Towns and cities   |   |  |           |     |                |                  |   |  |                                      |  |
| Buildings made by the people who lived there. | Buildings built by others with more regulations.                     |   |  |           |     |                |                  |   |  |                                      |  |
| People moved depending on resources.          | People tend to stay in one place more.                               |   |  |           |     |                |                  |   |  |                                      |  |
| Settlement                                    | A place where a community of people live.                            |   |  |           |     |                |                  |   |  |                                      |  |
| Village                                       | A small group of houses and buildings in an area surrounded by land. |   |  |           |     |                |                  |   |  |                                      |  |
| Town  | A more built up area with a local government.                        |   |  |           |     |                |                  |   |  |                                      |  |
| City  | A very built up area usually containing a cathedral.                 | <p>On a map, what would the key be used for?</p> <p>To show what each symbol means.</p>   |  |           |     |                |                  |   |  |                                      |  |
|   |  |   |  |           |     |                |                  |   |  |                                      |  |
|   |  |   |  |           |     |                |                  |   |  |                                      |  |
